Don't overlook the question of good roads. This is something which should always be with you.

Can a Legislator rush the anti-pass bill when he has a pass for himself and family in his pocket? It looks somewhat questionable.

You should not let the question of cotton mill lag. It is a proposition worth pressing. Start it, you can raise on the outside enough capital to complete it. It is not a hard proposition to finance. Let the people show their faith.

If salt is an indication of gas, then along the iron company's switch gas can surely be found, for the ground is perfectly white, and the cattle gets their salt at this place. It is a curiosity. In damp weather the salt disappears.

When J. W. Gates was wanted to explain the \$28,500 note, his business became very pressing in Cuba and Panama, and if pressed would doubtless go to Japan, Australia, anywhere to keep from explaining. He doesn't want to explain an outland story.

When trouble and affliction befalls one of the citizens of Jefferson, the balance respond like a band of brothers and sisters. The JIMPLECUTE cure questions if anywhere the spirit of charity is more lovingly shown than by the noble ladies and gentlemen of Jefferson. They never tire in the good work.

The JIMPLECUTE is proud to see the name of Senator Culberson again brought forward as the proper person to lead the Democratic party in 1908. The Senator is an extremely modest man, and will pull back all he can. The South wants him because he is absolutely a clean man, beyond any one's reach.

Marion county has very recently redeemed \$6,500 of her bonds. This makes \$8,000 redeemed in a very short time. At this rate it will not require very long to notify the world that the county has no bonded indebtedness. No new indebtedness is being created. Why has this not been done before?

H. Clay Pierce is hunting some place, or some crime, where the wicked cease from troubling, and the weary are at rest. He is always willing and ready to come and testify, but he does not come. Instead he hides himself aboard his yacht, and catches the salt breezes—out of reach of the court process. He doesn't want to tell it all. So he hides.

The March Woman's Home Companion is out, and is full to over flowing with many strong articles and features of interest on topics of the day. Its many departments are up to the standard, and touch on many subjects of interest to the women. It is really a superb magazine and should be in every home. Price \$1.00 a year, or we will send both papers for \$1.50.

Some of the papers who are siding with Senator Bailey are asserting nothing has been proven against him. Surely such papers don't write the people down as fools. If it was not for the Gal. Dal. News and some others the people would surely think Bailey the worst prosecuted man ever lived. But the people know better. They know and understand the English language. They know that the \$1,500 has been thoroughly traced from Galveston to St. Louis, paid and paid out by Bailey. At least that is the way the people read it. But then the people know which papers are giving them straight goods. Fairness and truthfulness is much better than trying to mislead.

## ANOTHER MISTAKE.

It is a great pity that when any place possesses the many natural advantages as Jefferson, that one of her citizens should feel a sufficient interest to assist in developing them. At one time everything pointed to the sinking of several gas and oil wells, but like many of the bright prospects the proposition has been abandoned. The JIMPLECUTE felt sure that by the first of March the glad news could be given to the people that if gas and oil underlie this section, it would be brought in. As before stated the proposition has been abandoned, and whatever hidden wealth may lie beneath us, will remain there for an indefinite time. It is penny wise and pound foolish to let it pass. Had the proposition carried through it would not have cost the property owners of Jefferson one penny. At least \$30,000 would have been expended in making the test. This would have been outside capital. Had gas sufficiently been developed, a rolling mill of sufficient capacity to have used up the output of the furnace would have been put in. It is a well known proposition that a cotton mill can with gas would have doubled the earning of one of similar capacity operated with coal. It stands to reason that Jefferson has again added to her long list of unfortunate blunders. It is with a spirit of deep regret that the JIMPLECUTE chronicle the departure of another golden opportunity which carried with it every indication of a rich harvest for the city. It is indeed hard but the chance is gone, perhaps forever.

We are under obligation to Judge S. W. Moseley for a copy of the proceedings "Fifty-eighth Annual Session of the Baptist General Convention of Texas," held in Waco, November 1906. It shows the growth and history of the Baptist since 1848, and is very flattering to the members of this great body of church people.

The birthday of the father of his country is being observed throughout the land to-day.

## Is your baby thin, weak, fretful?

Make him a Scott's Emulsion baby.

Scott's Emulsion is Cod Liver Oil and Hypophosphites prepared so that it is easily digested by little folks.

Consequently the baby that is fed on Scott's Emulsion is a sturdy, rosy-cheeked little fellow full of health and vigor.

ALL DRUGGISTS; 50c. AND \$1.00.

A mistake occurred in the statement of the O. C. A. in last issue of the JIMPLECUTE, in which the amount paid by city (\$36,255) was made to appear twice.

This statement shows something of the work these ladies have done for the benefit of our cemetery.

In addition to this work they have embellished the Confederate memorial lot with a variety of plants and beautiful flowers, and kept the four streets surrounding it clear.

This lot, 48 feet square, bounded on each side by 8 ft street, was donated to the Gen. Dick Taylor Camp by the O. C. A. as a site for the Confederate monument as soon as they came in possession of the cemetery addition. Deed to same was made April 21, 1905, and accepted.

On Decoration day following, of same year, it was dedicated. On this occasion, one of the speakers expressed a hope, which found a echo in every heart, that a suitable monument would soon be erected on this consecrated spot. This hope seems about to be realized, as nearly or quite three-fourths of the amount necessary has already been secured through the zeal and energy of the adjutant, assisted by the commander of the camp.

The O. C. A. have in their treasury \$45 for this monument, subject to the order of Gen. Dick Taylor Camp.

**Card of Thanks.**

Respectfully,  
Mr. and Mrs. S. A. McNeely,

**NOTICE.**

**Skating Rink.**  
On last Wednesday night those who were so fortunate as to attend the rink, witnessed a great treat and a splendid performance, by far the finest attraction Manager Fry has ever put on. Mr. Harry L. Eisel, who has been here for several weeks as instructor for the rink, gave a performance in fancy and trick skating, executing gracefully many novel and daring feats. Among the many acts were waltzes and two-stepping, his time and step being perfect. "Treading the burning needle," being a very difficult act, but it was easily performed by this artist. Slide for life and jumping six chairs, and skating on stilts two feet high, were all difficult and daring feats, and the audience to a person were all highly pleased, and were loud in their applause, showing their appreciation of the performance as well as popularity of the performer.

## COMING HOME FROM TOWN

"We dined in some of the finest hotels and restaurants, but did not find any coffee to excel in quality Arbuckle's ARIOSA."

That is what one lady writes and millions of others prove they believe, by using more Arbuckle's ARIOSA Coffee than all the other packaged coffees in the United States put together.

The fact that Arbuckle's ARIOSA Coffee costs less and has suited the health and taste of most American people for over

37 years, ought to induce everybody to at least sample it.

The cities hide many country girls and boys who secretly sigh for a cup of good coffee like "mother" made. "Mother" probably used the old original "Arbuckle's" the first roasted packaged coffee.

See that you get the sealed package, one pound full weight, bearing the name ARBUCKLE'S ARIOSA COFFEE and the signature of Arbuckle Brothers, which entitles you to presents.

That is the genuine article, no matter where you buy it or what price you pay for it.

Same old Coffee, same old firm. If your grocer won't supply, write to ARBUCKLE BROS., NEW YORK CITY.

It takes a clever man to pick up an umbrella and walk off with it just as if it belonged to him.
